## ABOUT

I, m a person with a positive outlook on life, I appreciate opportunities that I am given. I value integrity and treating everyone with respect regardless of their individual traits. I believe in behaving

in an ethical and accountable manner, I dislike negative situations, and I try to remove myself from

such spaces. I like critical thinking, surrounding myself with like minded people in order to learn more from their world views, and coming up with different and innovative ways to solve a problem.
